**VIVANTIS TECHNOLOGIES SDN BHD  
REVONGEN CORPORATION CENTER**

Document No.: MSDSrev05\_GFFE

Date prepared: 10<sup>th</sup> January 2023

Reviewed: 10<sup>th</sup> January 2023

**SECTION 1: CHEMICAL IDENTIFICATION**

Catalogue Number: GF-FE-005; GF-FE-025; GF-FE-100

Product Name: GF-1 Food DNA Extraction Kit with 5 preps, 25 preps and 100 preps

Description: DNA extraction kit for a wide variety fungus samples.

Description: DNA extraction kit for various food samples: raw food, processed food, highly processed food.

Intended Use:

For research use and laboratory use only.

**Company Headquarters:**

Vivantis Technologies Sdn Bhd  
Revongen Corporation Center  
Level 17, Top Glove Tower,  
No. 16, Persiaran Setia Dagang,  
Setia Alam, Seksyen U13, 40170 Shah Alam,  
Selangor Darul Ehsan, Malaysia.

**SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS**

All concentrations are below the acceptable limits specific to each chemical.

| Component(s)   | Hazardous Ingredient(s)                              | CAS No.              | Concentration  |
|----------------|--|----------------------|----------------|
| FL Buffer      | No hazardous substance or mixture in the ingredients | -                    | -              |
| FB Buffer      | a. Guanidine Hydrochloride<br>b. Tween 20            | 50-01-1<br>9005-64-5 | ≤ 50%<br>≤ 10% |
| Wash Buffer 1  | Guanidine Hydrochloride                              | 50-01-1              | ≤ 50%          |
| Wash Buffer 2  | No hazardous substance or mixture in the ingredients | -                    | -              |
| Elution Buffer | No hazardous substance or mixture in the ingredients | -                    | -              |
| Proteinase K   | Proteinase, Tritirachium album serine                | 39450-01-6           | >95%           |

**Acute Effects**

The ingredients in this diagnostic kit are irritants to skin, eyes and respiratory system. They are harmful if it comes into contact with the skin and toxic if ingested.

**Chronic Effects**

Hazardous in case of ingestion.

**SECTION 3: HAZARDS IDENTIFICATION**

**GHS Classification**

The extraction kit consists of individual ingredients for different components of kit.

## Classification of the whole kit according to CLASS regulation 2013

|   |   |
|---|---|
| Acute toxicity, Category 4, Oral;       | H302: Harmful if swallowed                              |
| Acute toxicity, Category 2, Inhalation; | H332: Harmful if inhaled                                |
| Acute toxicity, Category 2, Dermal;     | H317: May cause an allergic skin reaction               |
| Skin corrosion, Category 1B;            | H314: Causes severe skin burns and eye damage           |
| Chronic aquatic toxicity, Category 3;   | H412: Harmful to aquatic life with long lasting effects |

## Label elements

### Labeling according to regulation (EC) No. 1272/2008

#### Hazard pictograms

#### Signal word

Danger

#### Hazard statements

|                    |   |
|--------------------|---|
| H302 + H312 + H332 | Harmful if swallowed or if inhaled  |
| H314               | Causes severe skin burns and eye damage                                   |
| H315               | Causes skin irritation  |
| H317               | May cause an allergic skin reaction                                       |
| H318               | Causes serious eye damage   |
| H334               | May cause allergy or asthma symptoms or breathing difficulties if inhaled |
| H335               | May cause respiratory irritation  |
| H412               | Harmful to aquatic life with long lasting effects                         |

#### Precautionary statements

##### Prevention:

|      |   |
|------|---|
| P261 | Avoid breathing dust / fume / gas / mist / vapors / spray |
| P273 | Avoid release to the environment                          |
| P280 | Wear eye protection / face protection                     |
| P280 | Wear protective gloves                                    |
| P284 | Wear respiratory protection                               |

**Response:**

|                           |  |
|---------------------------|--|
| P301 + P330 + P331        | If swallowed, rinse mouth. Do not induce vomiting.   |
| P302 + P352               | If on skin, wash with plenty of soap and water.  |
| P305 + P351 + P338 + P310 | If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor / physician. |
| P342 + P311               | If experiencing respiratory symptoms, call a poison center or doctor / physician.  |
| P362 + P364               | Take off contaminated clothing and wash it before reuse.   |

**Other hazards**

Not applicable

**SECTION 4: FIRST-AID MEASURES**

In case of contact with eyes, immediately flush with copious amounts of water for at least 15 minutes. Remove contact lenses, if present and easy to do.

In case of contact with skin, immediately wash with soap and copious amounts of water for several minutes. Take off immediately all contaminated clothing.

In case of ingestion, wash out mouth with water provided the person is conscious. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician immediately. Do not attempt to neutralize.

In case of inhalation, move to fresh air. Give artificial respiration if not breathing. Call a physician.

**SECTION 5: FIRE FIGHTING MEASURES**

**Extinguishing Media**

Suitable: Water spray, carbon dioxide, dry chemical powder or appropriate foam.

Unsuitable: No information available

Do not allow run-off from firefighting to enter drains or water courses.

Wear self-contained breathing apparatus and protective clothing and equipment to prevent contact with skin and eyes for firefighting.

Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Pairing Nature with  
Scientific Discoveries

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

### **Personal Precautions**

Wear the protective clothing, rubber gloves and mask. Wear self-contained breathing apparatus, rubber boots and goggles if necessary.

Do not breathe vapors, aerosols. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, and consult an expert.

### **Environmental Precautions**

Do not let product enter drains. Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

### **Measures for Cleaning / Collecting**

Soak up with inert absorbent material: sand, silica gel, acid binder, universal binder, sawdust.

Collect spilled liquid with liquid-binding material or inert absorbent and place in closed container for disposal.

Dispose of in accordance with federal, state and local environmental regulations.

Wash spill site after material pickup is complete.

## **SECTION 7: HANDLING AND STORAGE**

### **Handling**

Good laboratory techniques should be used when handling. Do not eat, drink, smoke or apply cosmetics in laboratory areas. Do not mouth pipette reagents or samples by mouth. Use reagents according to the product insert.

Work under hood or open-air space. Do not inhale substance / mixture. Avoid generation of vapors / aerosols.

Apply preventive skin protection. Change the contaminated clothing immediately after work. Wash hands and face after working with substance.

Avoid extreme temperatures during transport.

### **Storage**

Store all components as directed in the product insert. Keep tightly closed in a dry and well-ventilated place.

Pairing Nature with  
Scientific Discoveries

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

Wear appropriate personal protective equipment when working with components or samples, including laboratory coats, disposable gloves and eye protection. Avoid hand and mouth contact. Wash hands as soon as possible after handling components or samples. Handle in accordance with good industrial hygiene and safety practice.

**Control Parameters**

Exposure Limits: Contains no substances with occupational exposure limit values  
 Engineering measures: Ensure adequate ventilation, especially in confined areas

**Exposure Controls**

|                                   |  |
|-----------------------------------|--|
| <b>Respiratory Protection</b>     | In case of insufficient ventilation wear respirators and components tested and approved under appropriate government standards.  |
| <b>Hand Protection</b>            | Wear suitable protective gloves. Gloves material: compatible chemical-resistant gloves; nitrile rubber gloves.   |
| <b>Eye &amp; Face Protection</b>  | Eye wash bottle with pure water. Tightly fitting safety goggles. Wear face-shield and protective suit for abnormal processing problems.                                  |
| <b>Skin &amp; Body Protection</b> | Wear suitable protective clothing and impervious clothing. Choose body protection according to the amount and concentration of the dangerous substance at the workplace. |

**Environmental Exposure Controls**

Do not let product enter drains.

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

Information for FL Buffer, FB Buffer, Wash Buffer 1, Wash Buffer 2, Elution Buffer, Proteinase K

Appearance: Liquid, Colorless  
 Odor: No odor  
 pH:  
     FL Buffer: pH8-9.5  
     FB Buffer: pH5.5  
     Wash Buffer 1: pH8  
     Wash Buffer 2: pH7-9  
     Elution Buffer: pH8-9  
     Proteinase K: pH7.5

| Oxidizing Properties:                   | Not classified as oxidizing |
| Other information:                      | No information available    |

## SECTION 10: STABILITY AND REACTIVITY

The contents of the kit are stable under normal handling and storage conditions as stated in the product insert until the expiration date indicated on the corresponding label.

|                                     |   |
|-------------------------------------|---|
| Reactivity:                         | No dangerous reaction known under conditions of normal use  |
| Possibility of hazardous reactions: | Reacts with oxidizing agents; keep away from heat and sources of ignition<br>No decomposition if stored and applied as directed |
| Conditions to avoid:                | Heat, flames and sparks   |
| Incompatible materials:             | No dangerous reaction known under conditions of normal use<br>Materials to avoid: strong acids, oxidizing agents, bases         |
| Polymerization:                     | Hazardous polymerization does not occur   |

Hazardous decomposition products:

In case of fire hazardous decomposition products may be produced such as: carbon monoxide, carbon dioxide, and unburned hydrocarbons (smoke), nitrogen oxides, ammonia, gaseous hydrogen chloride.

**Additional toxicological information**

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for preparation as issued in the latest version. When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

**SECTION 12: ECOLOGICAL INFORMATION**

The extraction kit contains **Guanidine Hydrochloride (VL2 Buffer and Wash Buffer 1)** known to be hazardous to the environment or not degradable in wastewater treatment plants.

Self-assessment: Hazardous for water. Do not allow product or large quantities of it to reach ground water, water course or sewage system.

**Toxicity**

**Guanidine Hydrochloride**

Fish: LC50 (Leuciscus idus (Golden orfe): 1759 mg/L; Exposure time: 48hr

Bacteria: EC50 (Pseudomonas putida): 89 mg/L; Exposure time: 18hr

|  |                                   |
|--|-----------------------------------|
| Acute aquatic toxicity:                      | No known ecotoxicological effects |
| Chronic aquatic toxicity:                    | No known ecotoxicological effects |
| Toxicity data on soil:                       | Not expected to absorb on soil    |
| Other organisms relevant to the environment: | No data available                 |

Pairing Nature with  
Scientific Discoveries

## **Persistence and Degradability**

### Guanidine Hydrochloride

Biodegradation: <60%

According to the results of tests of biodegradability this product is not readily biodegradable.

Impact on Sewage Treatment: Do not discharge product into the aquatic environment without pretreatment (biological treatment plant).

## **Bioaccumulative Potential**

### Guanidine Hydrochloride

Partition coefficient: n-octanol / water: log Pow: ca. -1.7 (20°C)

## **Mobility in Soil**

No data available for the extraction kit, including Guanidine Hydrochloride and Proteinase K.

## **Results of PBT and vPvB assessment**

No applicable for the extraction kit, including Guanidine Hydrochloride and Proteinase K.

## **Other adverse effects**

No information available.

## **SECTION 13: DISPOSAL CONSIDERATIONS**

Do not contaminate ponds, waterways or drains with chemical or used container. Used components from this product should be disposed to a licensed waste management company.

Waste material must be disposed of in accordance with federal, state and local environmental regulations.

## **SECTION 14: TRANSPORT INFORMATION**

### **IATA / ADR / DOT-US / IMDG**

Not regulated as dangerous product in the meaning of transport regulations.
